

Reducing Climate Change Impacts Through Product Stewardship

Heidi Sanborn, M.P.A

Outreach Director, Product Policy Institute

Executive Director, California Product Stewardship Council

**Presented to the Solid Waste Association of North America
Monday November 30, 2009**

Webinar Discussion

- Welcome
- Introductions
- EPR (what is it?) and Climate Change
- Latest Information and Data
- Tools and Ideas for Practitioners
- Other Studies and Discussions
 - Which products have highest GHG impacts
- Open Discussion

Product Stewardship/Extended Producer Responsibility (EPR) Defined by CIWMB

“the extension of the responsibility of producers, and all entities involved in the product chain, to reduce cradle-to-cradle impacts of a product and its packaging;

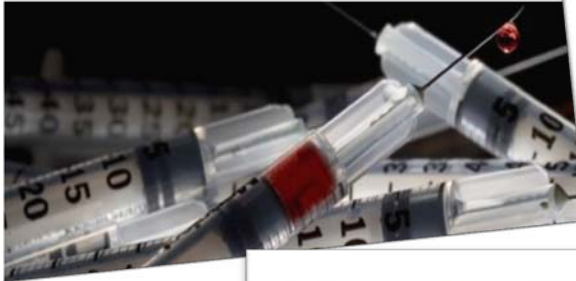

the primary responsibility lies with the producer, or brand owner, who makes design and marketing decisions.”

AB 939 (1989)

1. Source Reduction
2. Recycling and Composting
3. Transformation and Landfill Disposal

EPR Addresses Multiple Issues
