PPI is a 501(c)3 non-profit organization that needs your support to achieve our vision of a waste-free economy.

What Your Support Enables

**A generous gift from you today will help us transform our US economy to a cradle-to-cradle economy.**

PPI is working to transform our US economy from a broken system where products and packaging are routinely wasted in landfills and incinerators to a vibrant new economy that provides environmental, social and economic benefits through stewardship of products and packaging.

**PPI's unique role is defining and illuminating cutting edge insights and a public interest agenda** that transcends corporate or bureaucratic agendas.

In six years, EPR has gone from a novel concept to a commonsense policy approach that is sweeping the nation. This has happened with your help and in significant part due to the leadership of PPI.

**We need your help to build on this momentum** and arm activists, governments and forward-looking businesses with tools they need to make EPR the dominant policy approach for product and packaging waste nationwide.
